Professional Experience

FMFA Inc. – San Jose, CA   *Aug 2016 – Current*
Full Stack Developer
- Working on agile development team to build fully functioning application for Silicon Valley Faces, a non profit organization based in San Jose, CA
- Building in MEAN stack technology
- Assisting in development of database design, backend framework, and Amazon s3 file upload
- Deploying website on AWS

Projects

Silicon Valley Faces:
- Worked in a SCRUM team with 5 other developers to build a web/mobile application that allows for people to maintain contact and share information
- Application developed in MEAN stack, using a bootstrap template, and Amazon s3 api

Before 30:
- Single-handedly built web application that allows people to express aspirations/dreams they wish to accomplish before they turn 30
- Application developed in MEAN stack: AngularJS, mongoDB, ExpressJS, and Node.js

Photos Blog:
- Worked in a team of three to develop web application to host and sell photos for commercial use
- I worked on the login/registration functionality, API integration, and layout design
- Developed application in Python, Flask, mySQL, and utilized the Stripe API

Education

University of California, Irvine- Irvine, CA   Degree Awarded: 2013
Bachelor of Science in Public Health Sciences
